Travelling by car

From the M3: Exit at Junction 5 and from the slip road take the 1st exit (if travelling from the north) or 4th exit (if travelling from the south) onto the A287 signposted Farnham, Odiham and North Warnborough. At the first roundabout take the third exit onto Hook Road (B3349) signposted Alton, North Warnborough and Odiham. At the second roundabout take the first exit onto Dunleys Hill (B3349) signposted Alton and Odiham. At the third roundabout (on the edge of Odiham) take the second exit (B3349) signposted Alton and South Warnborough. From this point follow the directions from Odiham described below.

From Odiham: take the B3349 signposted Alton and South Warnborough and continue for 2 miles into the village. As soon as you reach The Poacher public house on the left you will see a white residential building, end onto the road, 200 yards ahead on the left hand side. Manor Cottage is the road side half of that building (it is the last house in the village on the left hand side). To access the property drive a few yards past the end of the building and turn left into a driveway and enter by opening the five bar wooden gate.

From Alton: drive 5 miles on the New Odiham Road (B3349) into South Warnborough and pass a garage (Kings Motor Services/Never Despair Garage) and a small block of offices on the left hand side. Drive forward past the second of two central bollards, and then turn almost immediately right into the driveway of the first house in the village on the right hand side. Again, access is via a wooden five bar gate.
